Work

ON THE COVER

RTC Bonneville Transit Center
Las Vegas, Nevada

Knit believes architecture can elevate and transform lives, fostering community wherever we live, learn, work and play.

Work is about making the places where we spend more than a third of our lives relevant and inspiring to today's workforce. its about re-imagining and elevating the places where we come together to create value.

Sustainability

Western communities are often islands of scarce resources amid beautiful but forbidding landscapes. As stewards of these resources, we have been charged with the dual missions of addressing the global problem of climate change and the aesthetic challenge of protecting open landscapes even as we accommodate growing populations.

At Knit, we consider it not only a responsibility but an exciting architectural challenge to create structures and spaces that conserve our resources and honor our landscape. To us, it is an essential part of being a good member of the community.
